<u>CIRCULAR LETTER TO ALL MEMBER COMPANIES</u>

Re: Announcing ManageData

In an effort to provide our carrier partners with the most user-friendly experience, the North Carolina Rate Bureau (NCRB) is pleased to announce the launch of ManageData coming in the Spring of 2020. ManageData is a tool available through our online portal that allows data reporters to submit, track, and edit their workers compensation data with NCRB in real-time. We believe that our new ManageData tool will provide greater value to our members through improved functionality and ease of use.

The ManageData system will be available for all users on **April 17, 2020**.   As part of this transition, we will be **sunsetting the current ManagePolicy and ManageUSR** applications and they will no longer be available for use after ManageData is released. Please continue to use these systems until directed otherwise, but keep in mind that any **unsubmitted transactions will be lost if not submitted before the transition to ManageData** takes place.
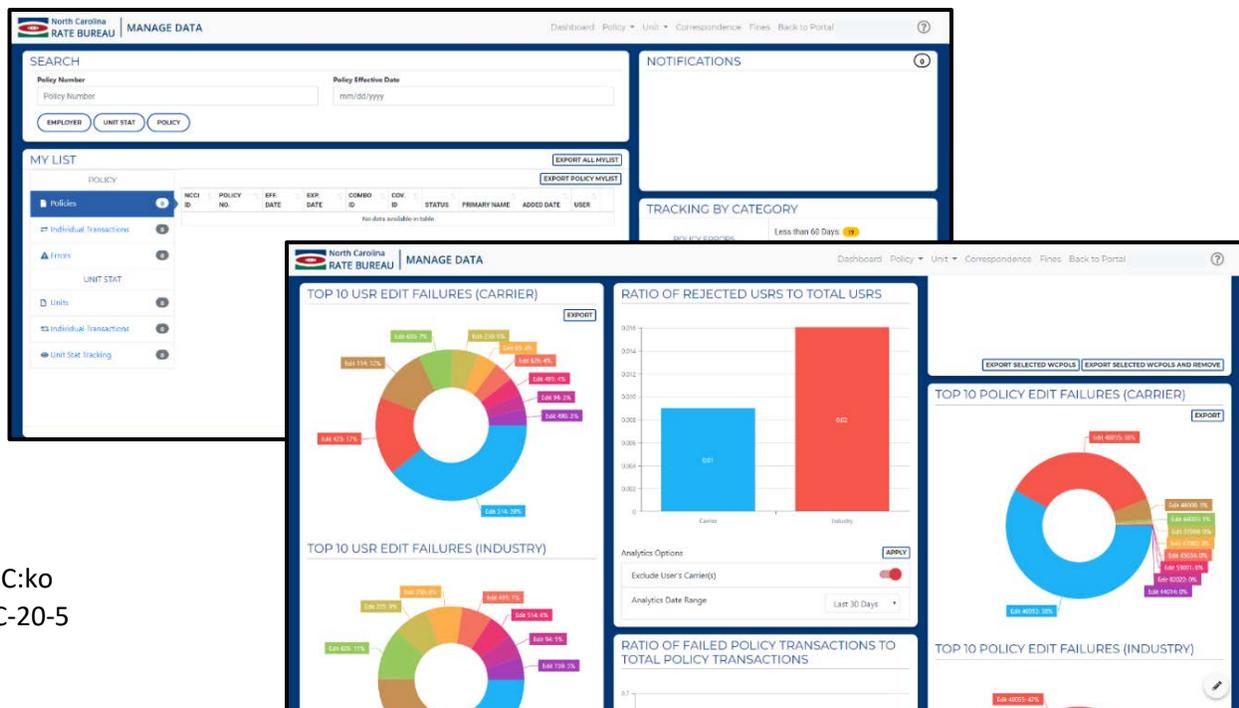

Prior to release of the system, NCRB will post a series of training videos on navigation and functionality to our website. The first video with basic navigation instructions will be posted on March 16th. More detailed guidance on functionality will be posted after April 1st.

Please watch for additional details about ManageData in the coming weeks.

Sincerely,

Jarred Chappell

Director, Workers Comp Operations
